	Urgent	Not Urgent
Important	<u>Do - MVP</u> ● A system of three hints ● A function that turns the date into a number so I can pick the clues based on the date to make it “daily” ● Check answer function	<u>Schedule - V2.0</u> ● Auto fill guesses or dropdown of countries ● Swing window that can use images ● Saving progress to a file
Not important	<u>Delegate - Use Library</u> ● Making the UI look nice with good fonts and things like that ● Picking the “perfect” landmark list ● Making a name and logo of the game	<u>Delete - Cut it</u> ● Including all 193 countries ● Make a global leaderboard and account system ● Multiplayer version
